

In nature, beauty can be fleeting. Like a snowflake. Or a sunset. But in our memorials, we've combined granite and bronze to create beauty that lasts.

Our memorials are designed to withstand the elements. Our durable Armor Guard™ finish is the industry's most protective. But this state-of-the-art coating technology is also the most lustrous, giving each memorial a high-gloss look and feel. Finally, our new pebbled borders – unique to the Garden of Life series – complete the look with just the right touch of elegance and detail.

INSPIRED BY NATURE. ENGINEERED TO WITHSTAND IT.

Our new vases are elegant enough to complement the most breathtaking floral displays – and large enough to accommodate the most generous. Another popular feature is our beautifully crafted tri-scroll design. Since each scroll is cast at different

times, they can be added and aligned more easily than ever before for a more unified look. Create a completely unique memorial by choosing a personalized emblem. We have hundreds from which to

choose, including a large selection of three-dimensional emblems. Raised and engraved letters also come in a variety of styles to help you capture an individual's distinct personality.

MORE BEAUTIFUL. MORE DURABLE. MORE OPTIONS.

ONE PIECE. ONE SHIPMENT. ONE PROMISE.

Each memorial arrives assembled in a single shipment. And you'll receive just one invoice with no labor charges. It's all a part of our Performance Plus promise, which guarantees your memorial will be finished on time. At Granit Bronz, we're committed to offering the best service – as well as the best products.

As the world's largest quarrier and fabricator of granite, our selection of colors is recognized as the very best. And we're still adding more.
